## **Compatibility certificate mouthpiece C-type**

As a manufacturer of mouthpieces for breathalysers, we declare under our sole responsibility that the mouthpieces of the company ADCS GmbH & Co. KG meet all specified requirements. This includes the non-return valve to prevent infection with germs in the event of incorrect use of the breathalyser as well as ensuring that the blow-in opening of the breathalyser and the mouthpiece outlet match exactly.

This ensures that the breath air taken by the breathalysers' sampling system has the sufficient volume for correct testing.

We confirm the exact fit of the

### **Mouthpiece C-type with non-return valve**

(REF: C422000426; BUDI-DI: 426241469ADCS42Z4)

for the following breathalysers:
